- User Personas
- Surveys

TOOLS AND CODE

- Figma
- Adobe XD
- Adobe InDesign
- Adobe Illustrator
- Adobe Photoshop
- React.JS
- HTML5/CSS/Bootstrap
- Vanilla JavaScript
- Java Programming

ABOUT

I'm a developer with extensive experience for three plus years. My expertise is to design and create user interfaces, enrich the user experience and most important of all make things seamless and elegant.

EXPERIENCE

JPMORGAN CHASE & CO.

Front-End Developer | Jul 2017 - Dec 2019

- Designed and developed a tooling platform which integrated multiple modules like trade analysis engine, reprocessing anomaly detection, monitoring and predicting trade workflow life cycle.
- Interacted with business, developers, and other designers to improve the user experience of the product through user flows, mock-ups, prototypes, and usability testing.
- Worked on designs from conception to release, which included, discovery, development, and post-release validation.

PROJECTS

STRACKIFY - SPORTS TRACKING APP

Product Designer | Jan 2020 - Feb 2020

- Designed a sports tracking application "Strackify" using the principles of design framework. This app is aimed at providing users with a way to manage a number of their favorite teams and their events at the press of a click, just like you would in a status/story, now-a-days present on any social platform.
- Play Store - <http://bit.ly/strackifyapp>

EVENTO - A EVENT MANAGEMENT TOOL

Front-End Developer | Jan 2016 - May 2016

- Implemented an event management tool the college would use. It's an interface through which students and organizers can seamlessly interact.
- Throughout the project's lifecycle, my responsibilities included heuristic analysis, wireframes, user flows & visual design

VESMART - BE FINAL YEAR PROJECT

Front-End Developer | Jan 2017 - May 2017

- Designed an e-commerce trading portal having modules for the buyer and seller, which had a mechanism to integrate the online and offline business model very closely to serve the users better.
